Plan for presentasjonen

1. Bakgrunn
 2. Begrepsavklaring
 3. Forskningsspørsmål
 4. Metode
 5. Funn
 6. Take-home message
- 

Bakgrunn

© WHO

© Ernst&Young

Begrepsavklaring

- Online Health Information Seeking Behavior (OHISB)
 - Digital, *aktiv*, søkeatferd
- Unge voksne
 - 18 – 30 år
- (digital) helseinformasjon
 - All informasjon relatert til helse(fremming), sykdommer, forebygging, behandlinger, medisiner og medisinske prosedyrer
- Digital plattform
 - En teknologisk løsning eller et nettbasert system som muliggjør interaksjon og transaksjon mellom brukere, ofte via internett
- Brukergrensesnitt (UI)
 - visuelle elementer, layout og navigasjonsmekanismer på en digital plattform

Metode

Steg 1: Identifiser forskningsspørsmålet

Steg 2: Identifiser relevante studier

Steg 3: Gjør et utvalg av studier

Steg 4: Hente ut, kartlegg og samle data

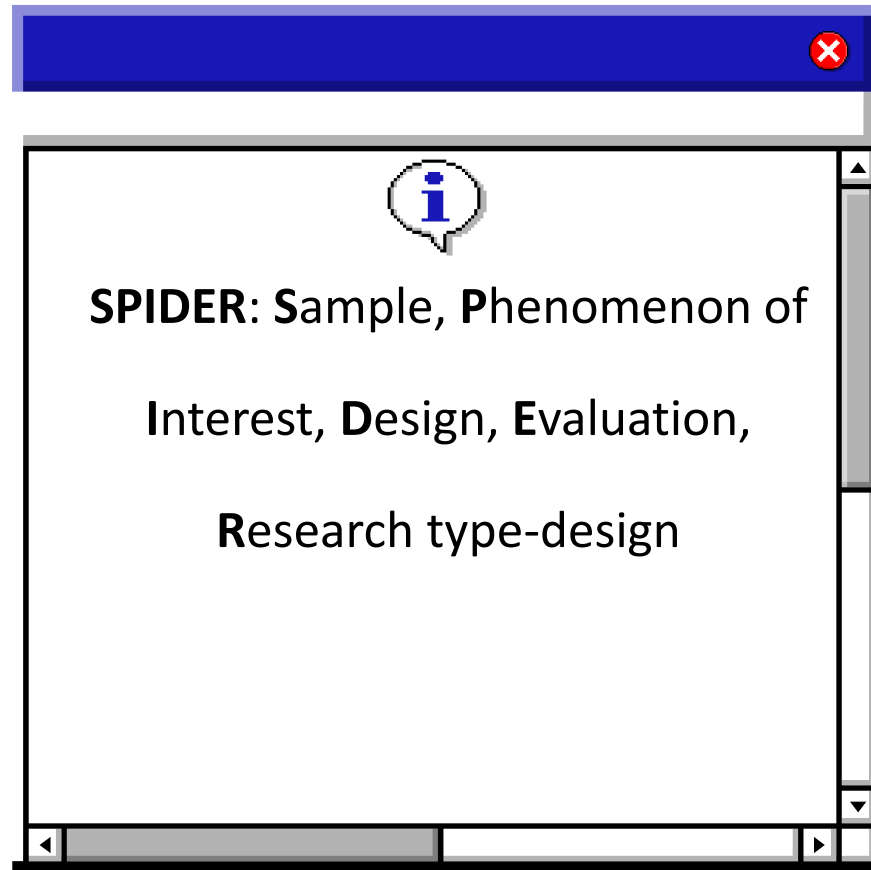

Steg 5: Summere, kategorisere, og rapportere resultater

(Arksey & O'Malley, 2005)

PRISMA-Scr: Preferred Reporting Items for Systematic Reviews and Meta-Analyses extension for scoping reviews

Metode

The image shows a presentation slide titled "Medical Subject Headings (MeSH® Vocabulary)". The slide is displayed within a window that has two overlapping blue title bars at the top, each with a red 'X' icon in the corner. The slide content includes an information icon (a lowercase 'i' in a speech bubble) at the top center. Below the title, there is a table with two columns: "MeSH Vocabulary Type" and "Examples". The table lists four types: Headings, Subheadings, Publication Types, and Supplementary Concept Records, each with corresponding examples. At the bottom left of the slide content, there is a small blue circle containing the number "4". At the bottom right, it says "Revised 2013/09". The slide is framed by a grey border with navigation arrows on the left and right sides.

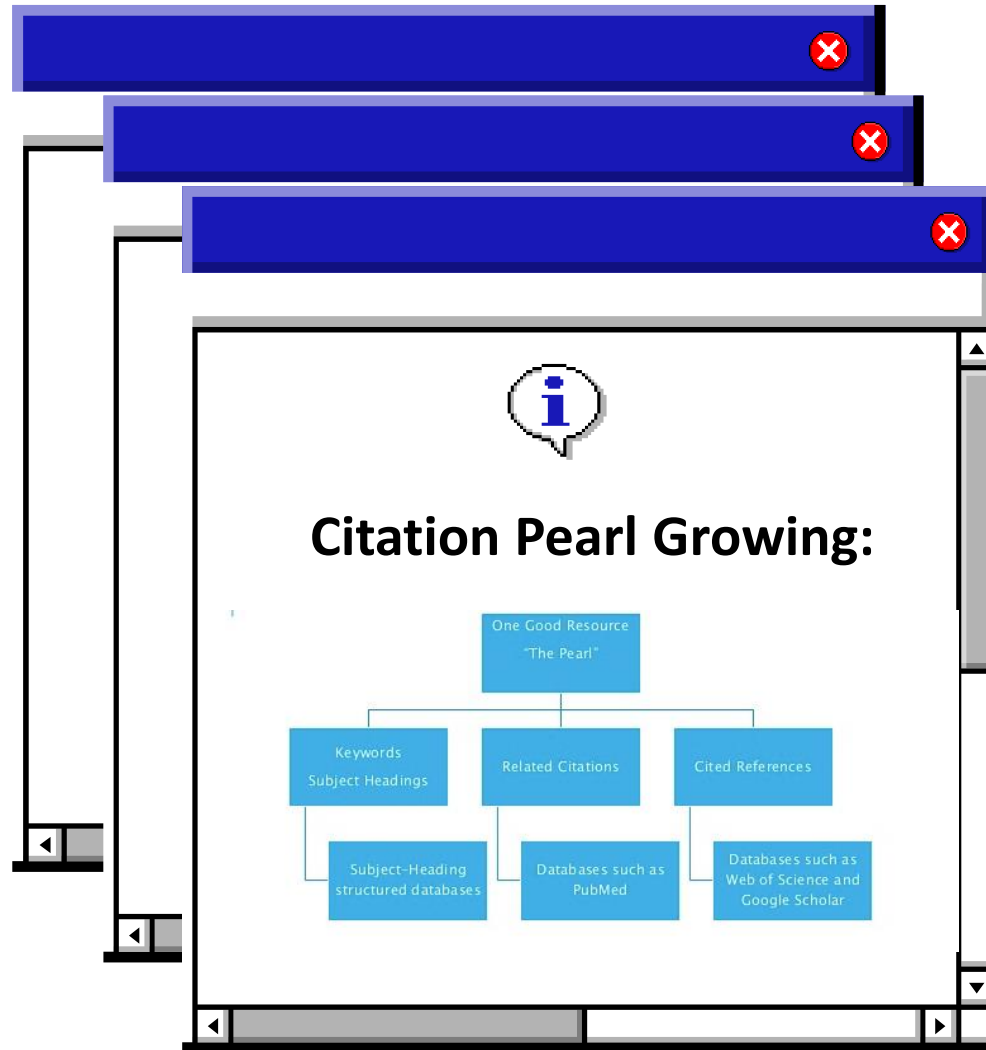

**Medical Subject Headings
(MeSH® Vocabulary)**

MeSH Vocabulary Type	Examples
Headings	Body Weight, Kidney, Dental Cavity Preparation, Self Medication, Brain Edema, Oseltamivir
Subheadings	adverse effects, genetics, contraindications, ultrastructure
Publication Types	Letter, Review, Practice Guideline, Twin Study
Supplementary Concept Records	cordycepin, albuterol-ipratopium, carbon monoxide dehydrogenase, nocturnin

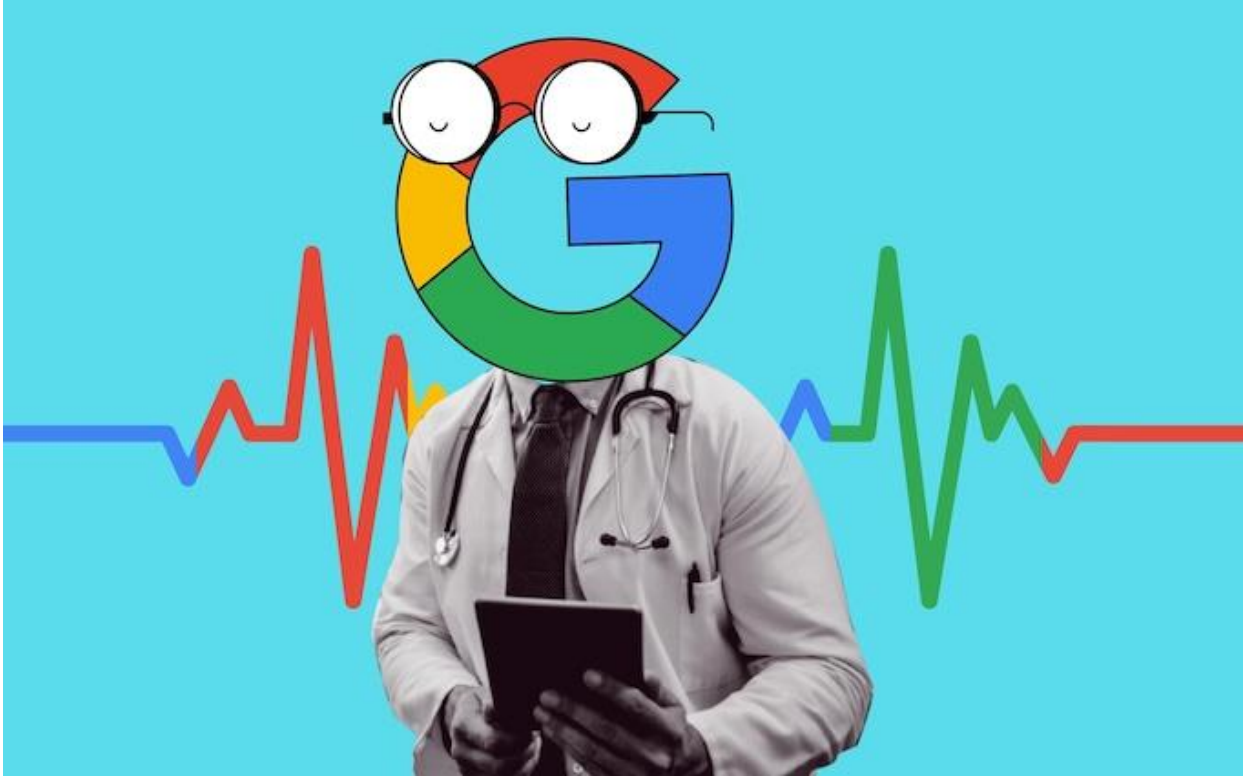

4

Revised 2013/09
